Experience

DevOps Trainee

Jun 2026 - Present

Al-Watania Information Systems | Google Cloud Platform, Huawei Cloud, MS Entra ID

- Managed and monitored cloud infrastructure across approximately **40 virtual machines** on **GCP and Huawei Cloud**, tracking resource utilization, alarms, logs, and overall system health.
- Strengthened cloud infrastructure security by configuring **IAM auditing, custom alerts, security monitoring, Cloud Audit Service (CTS), Cloud Eye, and Simple Message Notification (SMN)** for effective monitoring and incident awareness.
- Managed **Microsoft Entra ID** credentials, application registrations, API permissions, and authentication configurations to support secure application access and identity management.
- Worked with **Linux and Bash** for cloud infrastructure management and operational tasks across multi-cloud environments.

Projects

Multi-Cloud Monitoring | GCP, Huawei Cloud, Microsoft Entra ID

Aug 2026

- Developed a multi-cloud monitoring simulation modeling GCP, Huawei Cloud, and Microsoft Entra ID infrastructure workflows.
- Replicated cloud events for monitoring, auditing, alerting, and security scenarios across multi-cloud environments.
- Implemented event normalization, severity-based alerts, audit trails, and security posture scoring for centralized infrastructure monitoring.

Nebula Cloud Drive | AWS, Node.js, Express.js, JavaScript

Apr 2026

- Engineered a cloud storage platform supporting secure file management, sharing, collaboration, and storage tracking.
- Designed an AWS architecture using S3, EC2, RDS, ALB, CloudFront, and VPC for scalable cloud-based storage.
- Developed the application using Node.js, Express.js, JavaScript, HTML, and CSS and validated its deployment on AWS.
