SKILLS

- **Languages:** C/C++, Java, Bash
- **Cloud & Identity:** AWS, GCP (Google Cloud Platform), Huawei Cloud, CI/CD Pipelines, Microsoft Entra ID
- **Tools/Platforms:** Docker, Git, GitHub, Wireshark, Linux, Windows CMD, PowerShell
- **Concepts:** Data Structures & Algorithms (DSA), Cloud Computing, Computer Networking
- **Soft Skills:** Problem-Solving Skills, Troubleshooting Skills, Team Player, Adaptability

PROFESSIONAL EXPERIENCE

AI-Watania Information Systems, Riyadh, Saudi Arabia | [Salary Slip](#) | [Offer Letter](#)

06/2026 – Present

DevOps Intern

- Managed GCP and Huawei Cloud infrastructure across approximately 40 VMs, monitoring resources, alarms, logs, system health, and operational status.
- Configured IAM auditing, custom monitoring alerts, CTS, Cloud Eye, and SMN to improve infrastructure visibility, security monitoring, and automated alert notifications.
- Managed Microsoft Entra ID credentials, application registrations, API permissions, authentication configurations, and technical documentation.
- Assisted with cloud infrastructure troubleshooting and incident resolution, investigating alarms, audit logs, VM status, configuration issues, and infrastructure events.
- Created and maintained technical documentation for cloud monitoring, security auditing, alert configurations, and operational procedures.

Tech Stack: GCP, Huawei Cloud, Microsoft Entra ID, AWS, Linux, Bash, IAM, Cloud Monitoring, CTS, Huawei Cloud Eye, SMN

Sodexo – HLL Infra Tech

05/2024 – 06/2024

Junior Biomedical Engineer – Apprentice Trainee (FME) | [Letter Of Intent](#)

- Inspected and monitored biomedical equipment to support safe, reliable, and efficient healthcare operations.
- Assisted in preventive maintenance, routine equipment checks, troubleshooting, and identification of operational issues.
- Supported facility management activities, including maintenance coordination, equipment inspections, and service follow-ups.
- Maintained equipment records, maintenance logs, inspection reports, and documentation for operational tracking.
- Followed workplace safety procedures and supported compliance with equipment maintenance and facility management standards.

Tech Stack: Biomedical Equipment, Preventive Maintenance, Facility Management, Equipment Inspection, Safety & Compliance

PROJECTS

Multi-Cloud Monitoring | [GitHub](#)

08/2026

- Engineered a simulation project for the university internship report, modeling real-world multi-cloud infrastructure workflows.
- Replicated GCP, Huawei Cloud, and Microsoft Entra ID events for monitoring, auditing, and alerting scenarios.
- Centralized simulated incidents using event normalization, severity-based alerts, audit trails, and security posture scoring.

Tech Stack: GCP, Huawei Cloud, Microsoft Entra ID, IAM, Audit Logs, Cloud Monitoring, CTS, Cloud Eye, SMN

Nebula Cloud Drive | [GitHub](#)

04/2026

- Engineered a cloud storage platform supporting secure file management, sharing, collaboration, and storage tracking.
- Designed AWS architecture using S3, EC2, RDS, ALB, CloudFront, and VPC for scalable cloud storage.
- Tested the platform on AWS, validating deployment readiness for scalable cloud-based storage and management.
- Developed file sharing and collaboration functionality with access controls for secure interaction between users.

Tech Stack: AWS, Amazon S3, EC2, RDS, ALB, CloudFront, VPC, Node.js, Express.js, JavaScript, HTML, CSS

TRAINING

Abad Network For Training CompTIA Network+ Verify Here	08/2019
◦ Learned TCP/IP, subnetting, routing, switching, and network infrastructure fundamentals. ◦ Studied network security, wireless technologies, protocols, and common networking devices. ◦ Gained practical knowledge of network troubleshooting, connectivity issues, and infrastructure diagnostics.	

CERTIFICATES

◦ AWS Cloud Practitioner Amazon Web Services Verify Here	07/2026
◦ AWS Academy Graduate AWS Cloud Foundation Training Badge Verify Here	05/2026

ACHIEVEMENTS

International Opportunity	06/2026
Secured consideration for an international post-graduation employment opportunity with WiSys Riyadh following successful internship performance.	

EDUCATION

Lovely Professional University	Punjab, India
<i>Bachelor of Technology - Computer Science and Engineering;</i>	<i>Since August 2025</i>
CGPA: 9.34	
North Calcutta Polytechnic	Kolkata, India
<i>Diploma In Mechanical Engineering;</i>	<i>September 2021 - June 2024</i>
Percentage: 70%	
International Indian School, Riyadh	Riyadh, Saudi Arabia
<i>Matriculation;</i>	<i>April 2008 - March 2021</i>
Percentage: 78%
